Subject: RE: PFAS

Hi Kimberly,

We already have it linked on our PFAS packaging page. It's under question 2!

https://www.epa.gov/pesticides/pfas-packaging

Best,

Rhina M. Lara (she/her/hers)

Sorry I missed this! I can send a followup on the method for the rinsate to the person who scheduled the webinar, if you'd like.

Subject: RE: PFAS

Not sure what the last sentence means. Do we know where the rinsate method is housed on a website? I am talking with Rise members right now. These are some of the questions in the chat.

Method for the rinsate is already published; method for the substance will be released with the data – will need to follow the rinsate data due to the need for method validation, which is actively happening.

Also, are we releasing our methods when we released our data?

Are we testing other fluorinated containers and other containers from other flourinators?
